"Glimmer of Light"

When it was announced on the News that there was a Vaccine which proved to be 95% effective and that it may receive Bush Approval to distribute, I felt a sense of Hope that this Covid-19 Pandemic will finally begin to come to an end, so we can get back to our "Normal" living instead of having to worry about people around.

The anticipation is Palpable inside this prison because everyone's tired and frustrated being on Modified Lock-down for this long. Some inmates who use to go to Visit every week; has lost the person or people who came to see them due to Money being tight and because Visits has been suspended since March, 2020. Hopefully some or all these people can reconnect after all has returned back normal.

I've been doing everything I'm suppose to do to stay uninfected but I'll still take that Vaccine if it's offered. People are skeptical or nervous about what the Side-effects might be, if don't matter to me, it can't be as bad as dying.

A Glimmer of Hope is better than just waiting to eventually catch Covid by doing nothing. My main Prayer and Hope is that my Mom continues to stay Safe until she receives the Vaccine too. Me and my Mom are Peas-of-a-Pod, so we don't mind wearing a mask, sanitizing and Social Distancing. If more Americans would listen and stop being Stubborn when it comes to people's lives, especially there's, the infection rate wouldn't be so High.

We're in Prison, but supposedly Law Abiding Citizens won't even follow little Mask Wearing and Social Distancing rules, it's ironic!

Infecting someone should be considered an Attempted Murder Charge because it is for other similiar charges like Not telling someone you had HIV or AIDS but still having Sex with them.

The World is Hippicritical but I don't let it affect me, you have to just do you an live your life as best as you can like I'm sure everyone is doing in this Pandemic.

Luckily, I've had some supportive Pen Pals and my Mom or I'd had been Self-Destructed in some way or another. Things will get better if you weather the storm, that's what I've been taught.

My advise to the World is, don't let nothing or no one get you down.

An example of my Uplifted Spirit should be obvious because I'm writing this Story after a long hiatus of absence.

I'll keep ya'll in the World Up-dated on my experiences here in prison.

Be Safe and Sanitary!

Sincerely
 Shariff Taylor #A10369
