

## Incarcerated People of Connecticut

Here <sup>is</sup> today's World, We here in this jail got our stimulus and I could see already that a lot of people will be Diabetic soon and if they don't see it, they need to weight their self more now I could do this College course that I wanted to do without touching my 401-k, Other than that I stay around the positive people and away from negative folks.

I'm still making my Pizzas and their ~~heeb~~ see on them.

I'm about to go to an working house and since I;m under the old law I get like 16 days off every month, so I got to go with that.

My Trial starts on 10-9-21, and I just study more law now than ever.

I got another ink film ribbon and trying to get this type - writer is a nusence.

Other than that today is the last day of april 2001.

Tommorrow I got 5 months left till I go to Trial and my lawer is going to let them have it, when I was in Trial, my lawer took sides and since she was suppose to be my mouth peice and speak on my behalf she did not do a good job and she kicked the bucket back in 2015 why, I don't know, but I still pray for her.

These guys don't know but I;m getting back into court soon so making these pizzas everyday is got to come to a seace.

or slow down but I started all that so I can;t get mad.

I woke up this morning did my morning prayer  $\Phi$ ( farj), and it also starts my fast, and keeps me positive all day.

I have not did an essay in a long time and I don't get no feed back from Hamilton.

My kids out there one moved to the south which I'd rather have my Grand kids raised in the south any way (God bless) them all

Even though I only seen the first Grand child back in 2006  
and theres three more Grand sons added on since then.  
and I know my Daughter got her hands full but I hope  
Quanette Mcfadden and Kevin Benefield JR. who my brother took  
under his wing and sent him to Tracktor trailer training,  
back in 2009 as I requested and I thank him for that it's just  
that I don't have communicatipn with the outside ~~worl~~ world.  
Wegot these Tablets and I could get E-messages, and no one  
even sends me any messages.  
Other than that I still keep a positive attitude.  
I could not go to the library today and I needed to make copies  
trying to prepare for trial with out a lawer or no~~u~~ outside  
help, I done sent for a pen-pal who I hope would help me in  
these situations.  
They also got Video visits now and you could log onto that  
at [WWW.CT.GOV/DOC.com](http://WWW.CT.GOV/DOC.com) and for E-messaging log onto  
[WWW.Securustech.com](http://WWW.Securustech.com)  
I Hope hamilton uses the E-messaging where they could  
eliminate the use of paper that way.  
I just hope and pray that every one will get there shots  
and we could get by this pandemic, hopefully go back to the  
way things were.  
I thank every one who views theses ~~em~~ essays.
