

Today in the pemile system-----

1

I woke up today with a positive feeling and I got a letter yesterday from I.R.S. and they was letting me know yhey was sending me another \$ 600.00 and I did not even spend any of the money I had already in my account, andtheir sending me more. Other than that, I changed my activities today and steered away from playing scrabble.

I feel good not having to go to afternoon school now I could sit back and do other things.

Every body selling their things to make room for new stuff,

As for me I'm getting all the Electronics I need.

I have to tell my family to go onto WWW.prison writing arthive.com ,so they could see what I be writing.

The six years I was at the other jail I use to use the the computer to type these essays, over here I use this old type writer, it gets the job done though.

I wrote so I could get back into N.A. & A.A. like I was doing over in the other jail, where I ran those programs for years now that I'm in Macdougall c/i, I got to get back into what I was doing.

I got one certificate with U-Conn on it and that is going on my wall in a frame when I go home, along with the others I got in my last 11 years.

Looking at them makes me feel happy knowing I achieved them with the thought of learning something.

I try to keep my self busy in the day and after the 10 oclock news, I'm out for the count.

Let me end this essay with I hope every one stays safe out there.

thanks

K.B.
