

JUST MERCY followed by a worldwide time out (Covid 19) did help a "Bit". It got the ball rolling with BLM ext., Thow "Poor whitetrash" are also casualty's. The stereotype has been that if Police go after you, your bad or guilty, We can be thrown away like forgotten P.O.W.'s.

IM INNOCENT of alllll these violent convictions, not just Murder. But Im "Sytematicly" denied equal protection under law, my Due Process is carefully sabotaged at EACH step, Im givin Wolves in Sheeps clothing for Attorneys, and never saw the evidence! Even in my ignorance with zero resources or outside help and medicated. I've noticed so many "Errors" "Mistakes" by Police/Judges/Attorneys/Clerks that its far beyond PATTERN. Ther is a FACEBOOK profile under my name. Thow its outside my view or control. In riddin to a corner cell in protective custody. Harrassed/Attacked continually. Thow I mind my own bizness quietly. An 55 year old black Christian Mentor who studys law and is also innocent. Did tell me what I already knew, when your innocent and trying to prove it, they target you any way possible! (officers and inmates)

I say it this way - "I have awoke from a nightmare, its worse. I have found myself Shanghai'd aboard a ship, a sinking ship. With those who care or know not its sinking. The Police know, and Courts and jailors, but play ignorance (paycheck blind). When I put on lifevest or bailout water, Im whipped! Im thrown below deck 20+ times. Each time I make deck again I have less rank. Im holding the railing to stay afloat as She tosses in the surf. Without sleep or blinking Im peeling threw Fog at Horizon for an Island to swim off to. Everyday the hold fills with more and more seawater. Wer all on our way to the bottom. The rest of the crew of foriegners and armed pirates drink Rum and Kakkel like Hyena's, yet fighting still over gold coins that will never float. Ther billigerant bellowing blurs like the waves and weathery wind. As the distant past voice of my daughter Echo's threw my mind, saying "DA DA". I've put messages in ther empty bottles casting them out desprately. Messages they call treason. The only certanty is HATE and Desolation. Shore is not!"

This is the belly of the beast, cochroaches thrive in it. Thow what this place dose got is plenty of expensive junkfood. Diabetes with no healthcare. So I refrain/pray/ and drink 2 gallons of water per day. The officers must have no life in the rainpuddle of Sewer, AK, Cuz they come join the prisonthug drama. The cops are acting like badkids and go as far as felony's against some of us. Such as U.S.P.S. mail tampering or exploiting confidential files with aims of intimidation/violence among us. Then you got prison gangs going around Policing week or lonely inmates. Wer animals to the officers. Some animals they use for work, some they are entertained by, some are ther favorite pets, and some as me they use to feed to other animals who are predators.

I been proving all the Pigs profile of me wrong for 11+ years now. By remaining abstinant, and not fighting with my fists. But with pen n paper. Thow Im suffer extreme cruel n unusual punishment for excersizing this First Amendment right.

I "used to" wonder why SpringCreek was this way. The SAME way some wonder why the criminal Just-US system is extensive/expensive. But dont work. They say its "Broken". I say it works "perfectly" for those who benifit from its COSTS \$. This place is perfectly designed to break people. Yup. Its not Corrections at all. Most people got a narrow scope, just seeing a piece at a time. Thow scientists and detectives know that if you chipaway all thats impossible, the remainder becomes more and more clear. Like a Sculptor w a chizel creating a Statue. Most people see only a rock or mess of chips below it. But Yoder Blalock Yoder Blalock 12-31-2020 see's an un folding MASTERPIECE. Disgusting Human Nature.
