

13/11/21

DEAR APIWA, This is Miss Betty Odom. I'm about to write on a Topic that is going on at The Lane Murray Unit and half of it reflect on me. The topic I would like to speak on is Employment and labor. I been on Lane Murray since March. I came from the Hobby Unit. My job title is Kitchen Shift 1am-8am in the morning. I was a ODR cook but not no more I have a lot of medical health issues. They are called Restr. My health issues are high blood pressure Asthma, Heart issues F. Tumors. I have no heat Restr no Direct sunlight due to my high blood pressure muls. I was giving all this by a Doctor from medical. I'm not suppose to be working in the kitchen or nowhere. At Hobby I was medical un-sign/Inside medical. At this unit they don't care and they work you against your Restr. Try to tell them about it which is our kitchen Boss they try not to hear it even curse us out plus will try to write us up. It's a lot of racism at the Lane Murray Unit. It's sad how us offenders get treated. I Odom is tired of been treated like a slave and like a dogg. It's not just me it's pretty much half of Lane Murray. we need some type of Justice. The TDCJ system is cricut - no good. It's not right. I been doing time since 2001. I speak for everybody in whi not just myself. I was shipped to this unit for medical issues.

Miss Betty
