Ignorance in Prisons and Society

It boggles my mind, how many news articles and activist promote, hire an inmate, give them a second chance to prove themselves. Who gives the innocent inmates a chance to prove themselves? I can prove, without a shadow of doubt, I'm a wrongful conviction, due to ignorance in society, I can prove my trial attorney, is a scumbag, who took a bribe, does society care? NO does the courts care? NO, Does the prison industry care? NO, I'm a body count, I'm doing my part by being in prison, so the prison can get government funding. Does the office of Disciplinary Council care, NO Does parole care? NO, So we write to the Innocence Projects for help, they dont care either. So at the end of the day, who cares? NOBODY CARES

Society is too busy with "hate crimes" and "Put in" to worry about us, or how many are sneaking across the borders. If you are an American, you got a better chance of getting out of prison in another country. There here in U.S.A. Because society is "brainwashed" into thinking everyone in prison is guilty and only guilty inmates deserve a second chance in life. So your either guilty or you rot away. Welcome to American Society, So before you wonder why 3 of your neighbors are in prison, wonder if any are innocent and lost everything they have, because of corruption of courts and society and what you can do to change society, to do the right thing and get them out, instead of the thousands of inmates that come right back in, on the "revolving door program".

something to think about
