JUST MERCY followed by a worldwide timeout (covid19) did help a bit. It got the ballrolling with **BLM**, Ext. Thow "poorwhitetrash" also suffer. The mainstreame belief has been, that Police are **THE** goodguys. Because they are police. No question. So if their after you, you must be a badguy. We can be thrown away like forgotten P.O.W.'s

IM INNOCENT of alllll these violent convictions, not just muder. But Im systematically denied equal protection under law. My due process is carefully sabotaged at each step. Im given wolves in sheeps clothing to defend me. Im still refused records (pockets, police reports, Ext.) And to date Im denied Discovery / Evidence in every case. Even in my ignorance, lack of edubication (3rd. grade only), with zero resources or help, and medicated. Ive noticed so many Errors / Mistakes by Police, Prosecutors, Attorneys, Judges, Clerks. That its far beyond **PATTERN (R.I.C.O.)**. Im ridden to a corner, cell in protective custody. Harassed / Attacked continually. Thow I mind my business quietly. A 55 year old blackman, with basic law knowledge, who is also innocent. Also framed by A.P.D. And one of my only accociates, did tell me what I already knew. "when your innocent and trying to proove it, they target you any way possible (inmates & officers)"

I SAY IT THIS WAY — "I have awoke from a nightmare, its worse. I been shanghai'd aboard a ship, a sinking ship. With those who care or know, not its sinking. The police know, and courts and jailors. But play ignorant (Paycheckblind). When I put on lifevest or bailwater, Im whipped. Thrown below deck 20+ times. Each time I make deck again I have less rank. Im holding the railing to stay afoot, as she tosses in the surf. Without sleep or blinking, I peel threw fog for a horizon, in hopes of sighting an island. Everyday the hold fills with more & more seawater and we're all on our way to the bottom. The rest of the crew of foreigners and armed pirates, drink rum and Kakkel like hyena's. Yet fighting still over goldcoins that will never float. Their billigerant, bellowing bluffs. Like the waves and weathery wind. As the distant past voice of my daughter Echo's threw my mind saying "DA-DA". Ive put messages in their empty bottles, casting them out desparately. Messages they call treason. The only certanty is hate and desolation. Shore is not."

This is the belly of the beast. Cochroaches thrive in it. Thow what this place dose got is plenty of expensive junkfood (Diabetes with no healthcare). But no church, school, or phonebooks. So I refrain pray and drink 2 gallons of water per day. The cops here must have no life (or treadmills) in the rainpuddle of Sewer, AK. Cuz they come join the prisoner drama. These cops think its all a game. Acting like bad, spoiled, kids. Going for as felons on us. Such as tampering with our U.S.P.S. mail. Taking our legal dockuments. Exploiting "their" files of us. With aims of strife, chaos, violence among us. Like mischiefful chess. Then there are prison gangs. Thugs with patches (badges). Who go around policing week or lonely inmates. A circus at a zoo full of Gremlins. We're animals. Some are used for work, some are for entertainment, some are the cops personal pets, some as me they use to feed to other animals. who are predators. Im enclosed in a little cement tomb each night (sometimes for weeks). Sufficating with no voice. My only stimuli is my aching back, my cellys farts, random door banging and screaming obscenitys of sociopaths. My only emotion, the torment of replaying memories of my children being taken, crying for me. Then placed into the ranks of my enemy and taught to forget me, or the peril of what haphazard conflict befalls me the next day in this mill of misery and death. This place deliberately destroys men. Its corrections. So I been, proving all the pigs profile of me wrong for 11 years now (Frustrating them). By remaining abstinant, and not fighting with my fists. But with pen n paper. Since cops **HATE** the **FIRST** **AMENDMENT**, like rapists hate schoolgirls with pistols, I suffer extreme cruel unusual punishment for excersizing the **RIGHT** to write. I used to wonder why Spring Creek was this way. The same way many wonder why the criminal **JUST-US** system is extensive / expensive but dont work. They say its broke. en. Not me. I say it works perfectly for them who benifit from its costs. Most people have a narrow scope. Just noticing a piece at a time in front of them. Thow Scientists and detectives know. That if you chip away all thats imp ossible. The remainder becomes more n more clear. Like a sculptor with a chizel creating a Statue. Most people will only see a rock or mess of chips below it. But Yoder Blalock 12-31-2020 Sees an unfolding master piece.
