

Resuscitate

Dear CRit (school of thoughts):

To Get sensible straight to the alleluia irony. The Powers that be. Have criminalized the 13th Amendment of the United States constitution - farce and sham. One might say - what does that have to do with me? Well such criminalization abolished slavery, except. Those who have been duly convicted of a crime. In a capitalistic society, such as America, access determines wealth and power. The 13th Amendment includes an exception, otherwise known as - loopholes or "clawback" provision. Such clause "except as Punishment for a crime" Gives Government access to slavery through conviction of a crime. Conviction reduces one to a slave. BY criminalizing Black people, places, and behaviors the state (NYS - DOCCS) is able to circumvent protections guaranteed by the 13th Amendment. Criminalization is the modern form of dehumanization, similar to the dehumanization employed by the slave trade. Criminalization depicts people of color as inherently culpable. Black bodies are racially profiled, Black spaces are deemed high-crime areas and occupied by police; and Black women are able to be violated in every imaginable way. Inside the current health pandemic. Those under imprisonment (male and females). Only are seen as being pawns in the game. That increases DOCCS false currency of credibility - Black people remain accessible for economic and political exploitation.

There's more. The 13th Amendment's loopholes

Recreates the arbitrary function of slavery that allows Black people person to be apprehended and taken into bondage. It is through this function Black People are over-policed and subsequently stopped, arrested, and convicted, and killed by law enforcement at disproportionate rates. As it stands, the 13th Amendment has transformed the slave state into the police state. Indeed physical slavery was abolished - that's until you are caught. In order for one want to be free, they must be acutely aware that they are a slave. In the words of- Mariame Kaba "anything worthwhile is worth doing with others." Being Black is more than just a skin-tone. It also consist of a state of mind. As George Jackson (R.I.P) wrote - the Revolution can not be won as long as bread and circuses continue to appear, but for many living through austerity, the circuses have now removed bread from the menu. New York State Governor Kathy Hochul. Is rigid on giving incarcerated individuals access to a second-chance. So it will take those of us on the fringes to save ourselves and everyone else along with us. There's no doubt about it. We must Resuscitate and Recuperate. Also than Reinvigorate and Innovate ways to ^{connect} ~~connect~~ and learn from other imprisoned people and our outside allies because being technology illiterate. Is symbolic to a person not being able to read. Resuscitate!
