**Self Talk**

J.S. Russell

Energy

Thoughts

Feelings affected by

Energy adverse to the direction I

Want to go

I want to go

They won't let me go

So

So until they let me go

Until it's my time to go

You got work to do

Who?!

YOU NIGGA!

Get your shit together

Don't let these people upset you

Don't let these people get you

Where you're not focused on the mission

I'm free, I'm happy, I'm healthy, I'm rich

We say these affirmations in repetition

Say it out loud!

Listen

Envision

Remember the beach in Miami

See the beautiful sunset on the cruise

Calm your mood

Now think bigger

See the bigger picture

Using this experience to educate and create

Change

And create change

For profit to non-profit

Creating currents of exchange

Establishing a blue print

For those who want to make the transformation from chains

To a higher mind frame  
Mine  
Fame  
For giving game  
Of how to turn loss to gain  
Cross and pain  
A mere sacrifice  
To reach a higher plane  
See what I'm saying?  
These mutha fuckas ain't there  
Stop allowing them to make you mad  
We got shit to do  
All these books we've read  
All this work we've did  
It's all for something  
Something greater than us  
And because of what's greater than us  
We getting out of here
