

## JUNETEENTH SIIY'S

JUNETEENTH say's I'm FREE, why wont Massa release me. They said there's no more Slavery, yet, according to their economic power I'm weak. I dont own any property and have never enjoyed America's sovereignty. Probably, because they hid and never believed, JUNETEENTH set "US" FREE!

Americans continued on in White Supremacy. Religiously, Economically, Governmentally and Privately with all our White Citizenry. We've been divided Racially way before JUNETEENTH. JUNETEENTH say's we may be FREE, yet, we're The Majority inside these United States Penitentiaries. May I say Purposefully. Especially, since Slavery was America's greatest atrocity against The African American Citizenry.

Some have agreed over the years regarding Equality, but some are sooo Racist they'll never comprehend Martin Luther King Jr's Dream. Life here in America have been just what it seem. One thing for sure, we've never been Redeemed. We've intentionally fallen short in every scene. So, to celebrate JUNETEENTH, Massa must enforce Equality. Because White Privilege is as far as the eye and heart can see.

We've all witnessed these prolific Visionaries. All they seem to see is White Americans being totally FREE! All other Races got trampoline. They've been jumped up and down on for Centuries, an Eternity of continuous Struggling. Never fully accomplishing what The United States Constitution really mean. Surely there lies no JUNETEENTH. Although, the 13th Amendment set "US" FREE! I sometime wish I were back there in 1863, I'd fought for The North in The Civil War indeed, to help set our people FREE!

Since then, its been an endless unethical stampeded. Based on Selfishness and Greed. This seem to be America's Creed. They've controlled The Narrative regarding what we say and think, the jobs we work, the money we make and the food we eat. Our Health Care and where we live on the street. This all still feels like and sound like Slavery. So, will you please request also to Massa to set "US" FREE! Wouldnt none of "US" be here had America practiced Equality, like they thrived off Slavery. We wouldnt even need a JUNETEENTH!

From a Son in the land of the FREE!
