Saving Grace

Too poor to afford forgiveness

To black for a shorter sentence

More than my worst decision

Just asking that you listen

System's causing division 'tween you and me

Party lines they deepen as we speak

Tough on crime sounds good but is no remedy

People profiting off the pain of my family

Mad as hell and I want some vengeance

Tired of taking the high road they go low and call me
a menace

I guess this is s'pose to be my penance

Act like my story's over I haven't even penned it

System's causing division 'tween you and me

State versus me, me versus you is no way to be

"Justice" like this leaves millions empty

Will we ever respect our shared humanity?
