### THE PILL

My so called Homie offered me a pill, then decided to explain to me, how it would make me feel. I thought about it, looked at my called Homie and uttered, for real. Then I asked, can and would the pill kill, or are the residual effects a permanent addictive ill?

He looked me up and down, used the N-word, "N-word your reality will become instantly unreal, whatever your mindset is is how the Pill will make you feel." I value my life and I believe the Pill is a hellava ordeal.

So, I stood my ground and said no thank you. I'll pass on that and you can keep the Pill. He popped two (2) of them and replied, N-word, you're so surreal. People, the N-word and Pill should be banned and permanently sealed. Both are part of our daily negative drill.

We must as a Nation kill any and all negativity for hope within God's protective shield. I know for sure, after the high of the Pill, he/she must face reality and pay the bills. There are plenty Homies in jails and prisons for what they've done after taking the Pill.

Some are never ever getting out, and that's for real. The Judge gave them life or 100% of their sentence, what a hellava ordeal. The Pill does kill! I know alot of ya'll have experienced the high of the Pill. Some say "It's like sitting on the edge of a 30th floor window sill."

I know, it's way more dangerous than slipping on a banana peel. It takes away your Godly choice of Free Will, because it alters the Cerebrum Intellectualism to bare minimal. You could become a Statistical carmel brown black lace full of concrete and steel. Yes, your very own assigned cell, because by then, we're bought and sold with zeal. And thats the love of the Pill, especially for those who use it, as well as, those who survive off the non-skilled. What's your Pill? The real deal about the Pill must be revealed!

The Pill aids and assists in our Nation being altered and killed. Violent acts & Drug Addictions really don't care who they steal. Majority

take the Pill and think they chill, but majority keep the truth  
concealed. Let's talk about the consequences of the Pill. (Romans 13:13  
& 14)
