

NOBODY SEES

Written by [REDACTED] FCI-Ashland, for Whyte Mic & Phat Pat

Propagate/Propitiate/Instigate
(Do whatcha gotta do)

Alone with my thoughts/I am what it's not/ Just as it ought
(To be ... ready or not)

I think I'll meditate/Investigate/Don't wanna medicate
(The wounds run deep)

It's all in my head/Better off dead/They say to me
(What do they say)

No time to wait/Storm the front gate/Imancipate
(Set yourself free)

Put on your thinking caps/Hedging our bets/Why don't they see
(I see you my brother)

Brothers in arms/Tryin' to stay strong/No Fantasy
(Too real for me)

Wake yourself up/Shake the world up/Don't wanna crutch
(We wanna be whole)

As real as it gets/Stay off our necks/And let us all breathe
(Same air for you - N - me)

Black man or white / March on through the night / Come join with me
(Together we fall... together we rise)

Your hand in my hand / Let's all make a stand / It's got to be
(No more!)

Waking up to things nobody sees
(Wake Up! [echo fade out])
