Captured part 2

9-3-21

On 8-6-21 me and Fifty other inmates where captured and forced to move to I-B unit at SCI-Camp Hill for not taking a needle in the arm for COVID. The DOC, wants nothing more but to profit off of the inmate population and they have accomplished that except for the fifty plus men that are I-B unit whose rights are being violated. They continue to say that we have been moved for our safety but that is untrue. On two other units at SCI-Camp Hill whose inmates took the COVID shot but are locked down due to a COVID outbreak. We also have staff members working the units around the jail who are unvaccinated and don't want it as well, but they still have their jobs and are gonna to be subjected to a weekly COVID test... What about us. They have Care, Custody and Control over us, but are being paid to not lead by example because they as well are unvaccinated with more options then the DOC has given us... This will still show that they don't care about inmates etc. We're are investments for them and these fifty men in some way have been them under pressure by not following the unconstitutional orders of the DOC.

Now after this temper check that just started on 9-1-21 that are not written down on the cell doors (which is the protocol of the DOC). And it is a punishment us who is on this unvaccinated unit, I-B at SCI-Camp Hill. This double sentence for inmates who are already sentence is double penalties. They do not allow the muslims or other religious group to have any services etc. NOR will they process our grievances (see attachments). They believe that since we're unvaccinated so they can do as they please to us, no matter if they are violating our first amendment rights. The staff here on this unit continues to violate our rights so since day we are refusing strays and we know that the staff here would tell the outside world. So I'll report these un-justices.
