

Angels Wearing Mask

Covid-19, A virus trying to take over this land. Still during this pandemic so many have taken a stand. Taken a stand to help those in need. Angels caring for our sick, our children they help to feed. These Angels stepped up to help those who need care. Angels hidden behind the mask they now wear. They wear mask, to keep others safe is why. Sometimes the mask I wear helps hide the tears I cry. These tears I cry are because of the things I see. See how the people of the world together have come to be. The people of the world not just one or two. So many caring for others no-matter who. These people are heroes from which Angels are born. Angels without wings instead mask are worn. Mask are worn, they won't always be. The faces of these Angels again we will see. Take care of each-other as this pandemic we push through. To Angels wearing mask God bless and Thank you
