

Survival Sentient

Silent chaos is in motion
it's man made, subvertical, $\frac{1}{2}$ sadistic
Psychologically? You're relentlessly imposed upon
Extra weighty $\frac{1}{2}$ aggressive
it beats you mercilessly - 24-7 - leaving zero scar tissue
the perfect beast, perfectly created

Silent chaos IS in motion
Profound bonds once thought unbreakable, weaken $\frac{1}{2}$ deteriorate
Hopelessness saturates the environment like a fog
Mental Ju Jitsu $\frac{1}{2}$ Kung Fu
cerebral tools of operation
Through study, resolution $\frac{1}{2}$ discipline - I improve my craft
clandestinely under my adversaries nose
playing my part perfectly with the perfect beast

The majority? Duplicious bodies who exude unethical ethos
victims - emaciated - barely exist
Over indulging in vice - an exposed shell
yet, too far gone to tell.
Man Down!

Silent chaos is in subtle motion full steam ahead
I dance the Tango with it to African drum music
in a rice paddy minefield
Intense eye contact, hidden scalpels $\frac{1}{2}$ false intentions
Silent chaos is in motion
