

Genesis 3 the FALL, The craftiest lies are $\frac{3}{4}$ truth and works best aimed at the woman while the man is absent. The woman lacks defensive instinct so man is to lead. The enemy knows that when she is separated from man she is defenseless. A fine start is to get her to not trust her man and to believe she doesn't need him. The authorities in Alaska do this to families outside their elite class. If a woman needs assistance when her man is struggling the state offers but with a catch, no contact with her man. Indeed this is much bigger than most fathom. It guarantees a reliance on a system that grows and grows. Family out agency in. Producing a slave class. The benifacting tyrannical devils mock my "crazy talk" and demand I produce evidence. Where is this beast that I claim stalks the poor? But the evidence surrounds us, they are the beasts and their office is the snow that covers thy tracks. The people are kept too busy and are strewned signals threw screens they keep in hand. The proof is the rotting fruit under the tree. This is how I know what this tree produces. "You can fool some people some times, you can fool some people all the time, you can fool all the people some times, but you cant fool all the people all the time." The enemys favorite lie is that there is no enemy, or that the enemy is actually a helper. I learned strategy of notoriously corrupt police force at 13. Police entertaining their art pulled us over walking and separated US boys. They interrogated US separately. Where interrogating juveniles is unlaful even with Miranda warnings. Then they spoke among themselves. Then individually they explained to each of US that the other was snitching on the other. We could see anger building in each others faces. But we were not guilty this day of any offense. But if we had been or been less street smart we may have spewed out dirt on one another. After, police ordered US to go our separate ways (or be arrested). Watching/waiting to make sure we did. We did untill they drove away. We all went back and regrouped and learned what they had attempted upon US. It works well on average people who trust blindly with clouded out discernment. We were tough street kids who could not trust our own parents. This is government using ancient military strategy on its own tax paying citizens. All that after a ruff humiliating body search. They applied pressure against our sense of security, on us personally, then from each other. (They owned us and we were divided). But I taught us that day that they were the real enemy, not US. Our safety came from our unity and wits. Quite opposite of their intended affect on US. Women need to feel safe so this type of attack can be effective, making them a target. They "Fall for it". The police/military attain success with teamwork. To deprive an enemy this ensures smooth victory. Divide and conquer. Turn the enemy against each other and its labor/cost effective, entertaining, and theres no real evidence. So they can then go further and blame the remainder. By attaching the mark of incrimination, causing all kinds of limitations and ensures low wage capacity. Where the privileged continually points out to the unfortunate that life is all about choices. In conditioned ignorance the underclass blame themselves for coming short of illusional societal norms for success. Trying so hard to gain ability while getting nowhere. Their attention diverted from the competition. Ability is nothing without opportunity. Like the carrot on the stick in front of a horse to make it walk. The misfortunes of poverty carry with them nothing harder to bare than that it makes people ridiculous. Job 12:5-6.

When my people begin to buy that poverty is their own choice they wont object to a monopoly put over them making the inevitable a crime. **DISTRACT SEPARATE CONFUSE SUBJIGATE ENSLAVE** Hunters separate their prey. They enjoy their profession as others. Its thrilling to spear a mammoth. For their dutys they got to tag body's. Hunting females is generally illegal and not as exciting as taking down powerfull bucks. No hunter wants to hunt game to extinction. And police dont wish to end crimes. Its a renewable resource. If need be laws or prisoned space can adjust to regulate capital. Hunters prowl. A group of drunk idiots is like a flock of fowl. A stray will have no witness to stick up for them. A dominant bull would have combat history and can be accused of aggression. If game is of poor stature no one will object if its poached. Police claim to just bring them all in for the Court to sort out. Then Courts think that police caught them so must be guilty. Poor cant bailout or buy a defense, so there appointed a "public Pretender". Who eats lunch with prosecutors and paid by the same source but have much higher case load. They trade cases like baseball cards. They'll try to get you to plead guilty immediately. If we take a "deal" and plead out to bogus charges? We just might save our job, apartment, girlfriend. But if one chooses to fight it, they'll pay. Trial will be put off longer than the sentence would be if found guilty. So we plead under duress. Then were marked. Police then will tag us for any slightest similar offence without any proof. Two, three rounds of this dog n pony show in side a circlejerk of Kangaroos then your HIT! Presumptive habitual Criminal Status. Goodluck getting your Discovery or truth from any attorney. Your cutoff from CO-defendants/witnesses. The authorities lie to them about you turning them against you. Any paperwork you gather may be stolen/exploited by jail staff or other prisoners. They taint your public image to the Press. Tremendous resources are against us now. Any information in your favor will be scattered/buried. If you ever realize it, it will be years to late. You cant speak freely when testifying at trial, but only respond to ridged questions designed to evade your message. They can lie in court and call it an error, if its even caught. If its not its deemed true thereafter because your attorney "accidentally" failed to object on time. We tell the truth and its chopped/twisted untill completely backwards. Any grievance passes threw mess o procedure they control at whim. The methods foreign, resources scarce. Like saying you can drive a car if you build your own w/out shop. Even if you are able and present a perfect case? They can simply ignore their own law in what they call an "opinion". Then your on a long road to attack the conviction with a pencil, outdated books, virtually no phone freedom, and hundreds of yelling idiots to help you focus. If your lucky? In 20 years they'll notice your conviction was illegal, but call it an error to excuse them from liability. They'll offer a "deal" again time served, to release you at a homeless shelter, Slave status, but much much older. Or insist on a new trial to risk it all anew, threw the sifter untill you crack or give up. While the outside world forgets you. Resistance is futile. There is no law, just absolute power.
