

Injustice

The Texas prison system is designed to oppress, suppress and deteriorate the mental capacity of the inmate population - Modern day servitude & perversion are the new norm in this system - Nonetheless, wrong is right & right is wrong in this perverse environment - Injustice is at an all time high, even the parole board is pervert - The inmate population is considered a true pest - We're deprived of so much - Education, proper food / clothing, medical treatment, treated properly as a human being and humane living conditions, as well as our freedom - The parole board don't utilize their reintegration programs & success programs that will help those of the inmate population - They hinder us to keep us from going forward - Instead they keep us locked in cages - The plan is to work us to death, kill our drive to exist and be productive products of our environment and society - The facade the TDCJ system present to the public eye is not true, rehabilitation to put offender inside / ex-offender's on the right path or give us tools to use is all fictitious - False advertisement is what you call it - Everything is a cover up in

2.)

TDCJ - They hinder us from being productive
Skills to lead - Behind the scenes you
would think you are on the battle field,
Russia against Ukraine - Where is the
Justice? Where is the constructive criticism?
Where is the genuine people to invigorate?
Instead of pollute with the individuals
energy - I say, we should stand as a
whole - It's said: United you stand, united
you fall - We should stand up and
not stand down, but up for the right -
No matter how we strive to show ourselves/
prove ourselves approved in the translucent
eyes of this crooked system we will
forever be a criminal - These people don't
believe in transformation for the better - They
think the lesser of us, their only here for a
paycheck - Viewing us as unequal / undes-
erving to be treated like a human being -
The scenario of a beast chewing up a
human into thousands of pieces, dispensing
him as nothing and it's ultimate goal is to
destroy man is the stamp of my mental
eye's visual: dealing with these pervert
individuals in this flowing current of pure
perversion, mistreatment, deprivation and
mental disabling drainage - Only the
strong will survive - What about those
who are mentally unstable? Those with
severe mental disabilities? Those with

3)

dementia? Those who are senile? They are mistreated, abused taken advantage of by this pervert staff also, when they should be treated equally, loved, loved on and treated as somebody to - they lack the mental strength ~~and~~ capability to fight the fight of this war against the inmate population in which they reside - Daily we're oppressed, blocked from our freedoms so, we can't spread/share our knowledge or utilize our power - why do we have to be like clams at the bottom of a bucket scratching to get free? why are we denied to learn/self-educate? There should be more learning opportunities and programs to help the inmate population to leave these grounds never to return and grow wildly successful - yet pervert staff help make it a revolving door - without us they wouldn't have a job, all at the same time, they shouldn't perpetuate one being trapped inside perniciously constructed walls - It's time the inmate population do something different - Make a change - let not how to get out of prison, yet how to stay out of prison - when we "learn" better, that mean we "know" better and when we "know" better, we "do" better - I encourage all my brothers & sisters in this perverse / pervert environment to wake up, stand for what's right - Don't be the problem, be a part of the solution -

0135215

4.)

Don't allow this unjust system to cripple
your mental being - Expand your mind keep
it active and strong, you could never go wrong -
Mental strength elevates physical, emotional &
Spiritual strength - They want us oblivious
to the system, trapped in the unknown and
perpetually in the unknowing - They want us
enveloped in blindness only without a blind fold -
Rise above the rogue pervert staff -
You belong, you're deserving, you're human &
equal just as their equal & equal to them -
Learn all you can - Consume the knowledge,
it's your power - We all want to be treated
equally - True we made mistakes - We've
already been judged and sentenced - There's
no room for second judgment at the hand
of man - Only God can judge me - Only God
can judge you - Stop the impurity in the
prison system - Prison lives do matter.
