

Life !

by Ackeen

Dreamin dreams
as the day may gleam
Aspirations,
never stop to breathe
life
never stops her siege
the captured!
surrounded in the rapture
life after death
is surely backwards
death after life!
in a place -
we was sentenced to survive
New seasons, different spice
many fall before they spring
how salty is the faulty
how murderous they think
burgundy sugar spills
which prick is to blame
the insane or the sane
which varies through the days
it's a struggle to be tamed
it's a struggle to be tamed!
But these isolated souls
on an island, not alone

When freedom can be stole
cause people to be Stone
