

Health Care

If you can get in there they do a half decent job. I've been at F.S.P. for a little over a month now and I've put in 2 request to see the doctor or dentist. One time the C.O. came to my cell and ask, if I wanna go to the doctor. I said, "Yes". He never came back.

Another time I got all the way to the waiting area of the clinic and 2 hours later. The doctor said he was leaving and could not see me that day.

And another time the C.O. watched me Strip Squat and caught and told me next time Strip properly and cancelled my dental appointment. I'm still waiting to see a doctor or dentist.
