Genocidal self destruction,

Our world has come to,

When its better to lie and cheat,

Than to be honest about shit.

Societies perception of success.

Music, movies, advertisements, more,

All now designed,

To make you idolize, more.

Inhibitions your programed to have,

Without them,

Your no good to the man.

They'll make you more destructive,

To yourself and others,

Causing discipline to never arise,

Even in your utmost desires.

Innovator you will never be,

They've caused you to blind yourself,

So that you'll never ever see.

Now they are taught,

That school is just a waste of time,

That an education,

Is only a state of mind.

That currency and the dollar,

Is the only things to seek,

Since they are hard to beat;

Especially in the hood,

Where that shiny car and bling bling,

Looks so really good.

No time for the legal hustle,

Rhyme, sports, music and money,

Is what controls this show, ho.

Humiliation, abuse and ills,

All, by products,

Of programming designed to kill.

Stealing, killing, robbing and drugs,

Is all your taught to admire,

Keeping all else out of minds desire.

Don't you think its about time,

To wake up and smell the coffee,

Take off those blinders,

And at least attempt to be free.

Stand up and be the bold you,

Take control of the situation,

Monitor, rule and make your world.

Your the president,

Of your great, stationed nation.

Then maybe teach others,

Show them how to survive,

Recreate your world,

So that we can all,

Grow, progress and stay alive.
